The **Balance Treatment** is the recommended clinic kit to use for Bad Breath. This kit is used for 90% of bad breath cases treated at our Australian Breath Clinic. The kit is designed to raise the ph of the mouth whilst also cleaning the biofilm that accumulates in the mouth and causes bad breath. Balance is excellent at removing sour taste caused by acid as well as stopping bad breath. The flavour is strong menthol to give you 24 hour confidence.

The **BreathGuard Treatment** is also great for treating Bad Breath. Slightly more expensive, this kit uses the proven power of active chlorine dioxide technology to fight the bacteria that cause Bad Breath. The BreathGuard Pre Rinse is a mild flavour with a hint of mint. It is perfect for patients that do not want strong flavours, just strong effect. This newly reformulated Pre Rinse can be used instantly on mixing. There is no wait time (as with the old formula). The Starter Kit includes both the Balance ToothPaste and the BreathGuard Gel.
